Introduction

Project Name: Student Reminder

Student Reminder is the name of our smartphone software that assists students in creating schedules for their daily activities. Being productive begins with proper planning and organizing the working process, as well as selecting the greatest to-do lists, where students may utilize fantastic to-do lists as insert applications for planners or as standalone and productivity tools to get things done.

Objectives

1. more productive at work and in life
2. Weather Update and time management
3. keep track of everything on one app
4. organize hourly schedule anything with anyone, anywhere
5. tasks schedule and use time wisely

Features and function

1. Weather update
2. Easy to log in or register to the app
3. Authentication and keeping user data in the database
4. Easily group and filter tasks
5. Easy to create a to-do planner
6. Task saves with Calendar
7. User-friendly app easy to browse.

Target Audience

Our main target is students who are studying in college and university.

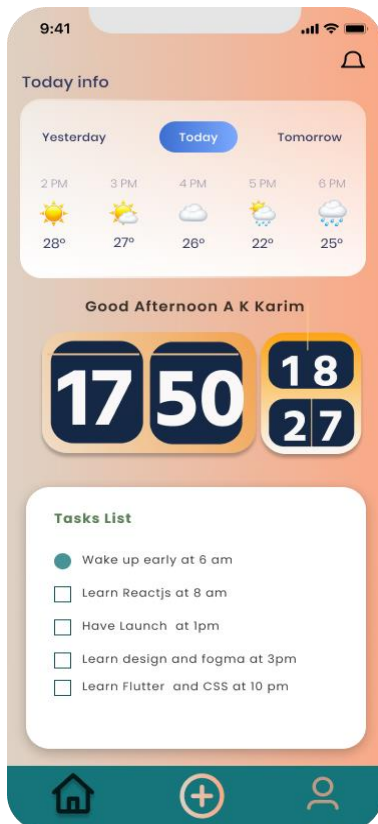

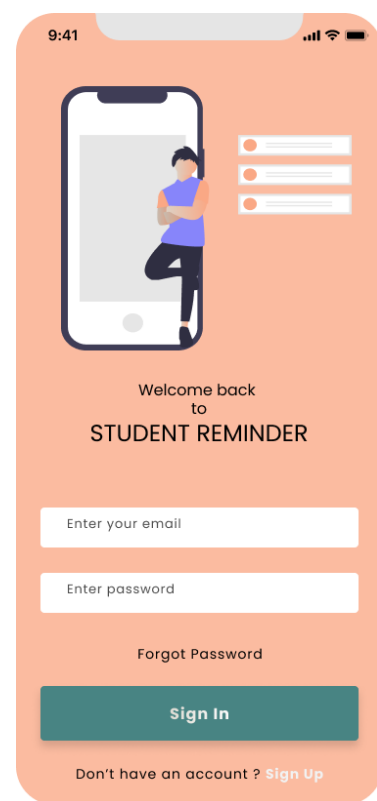

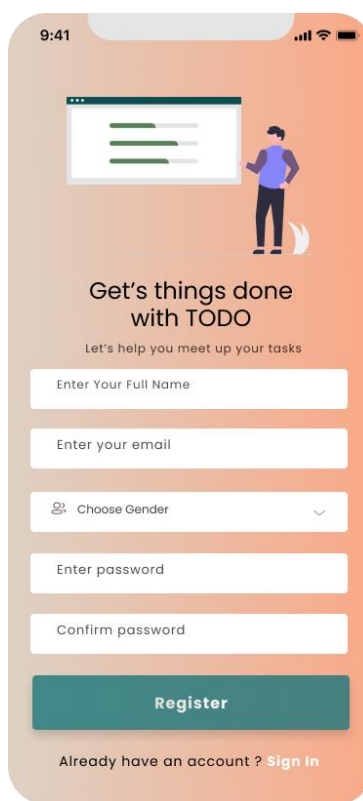

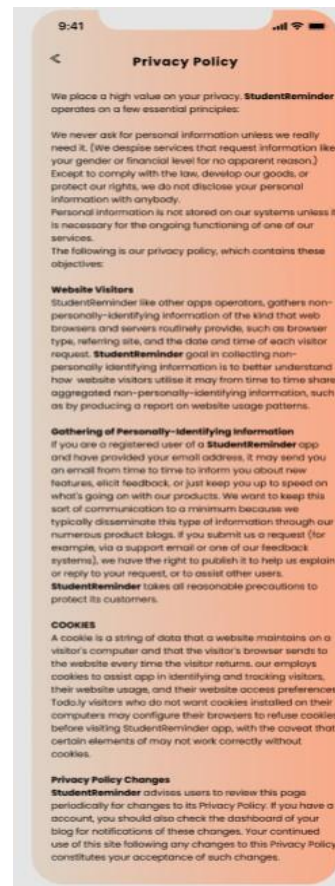

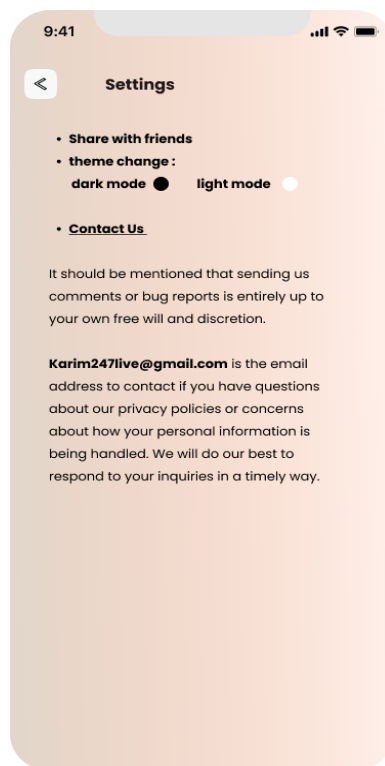

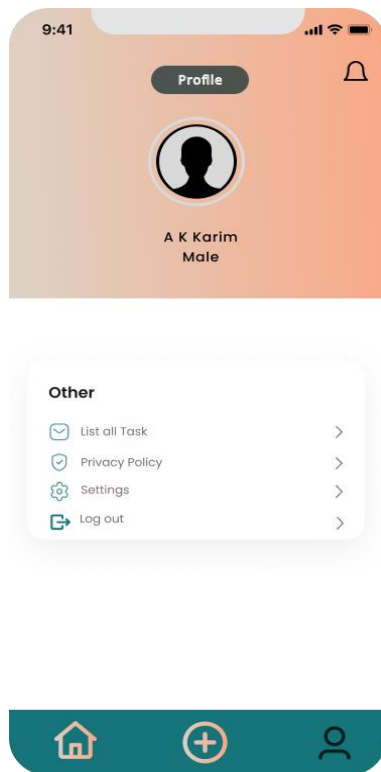

Specific Platform

The plan is to develop an android application using the Flutter development tool.

It should be mentioned that sending us comments or bug reports is entirely up to your own free will and discretion.

Karim247live@gmail.com is the email address to contact if you have questions about our privacy policies or concerns about how your personal information is being handled. We will do our best to respond to your inquiries in a timely way.

< **Privacy Policy**

We place a high value on your privacy. **StudentReminder** operates on a few essential principles:

We never ask for personal information unless we really need it. (We despise services that request information like your gender or financial level for no apparent reason.) Except to comply with the law, develop our goods, or protect our rights, we do not disclose your personal information with anybody.
Personal information is not stored on our systems unless it is necessary for the ongoing functioning of one of our services.
The following is our privacy policy, which contains these objectives:

Website Visitors
StudentReminder like other apps operators, gathers non-personally-identifying information of the kind that web browsers and servers routinely provide, such as browser type, referring site, and the date and time of each visitor request. **StudentReminder** goal in collecting non-personally identifying information is to better understand how website visitors utilise it may from time to time share aggregated non-personally-identifying information, such as by producing a report on website usage patterns.

Gathering of Personally-Identifying Information
If you are a registered user of a **StudentReminder** app and have provided your email address, it may send you an email from time to time to inform you about new features, elicit feedback, or just keep you up to speed on what's going on with our products. We want to keep this sort of communication to a minimum because we typically disseminate this type of information through our numerous product blogs. If you submit us a request (for example, via a support email or one of our feedback systems), we have the right to publish it to help us explain or reply to your request, or to assist other users. **StudentReminder** takes all reasonable precautions to protect its customers.

COOKIES
A cookie is a string of data that a website maintains on a visitor's computer and that the visitor's browser sends to the website every time the visitor returns. our employs cookies to assist app in identifying and tracking visitors, their website usage, and their website access preferences. Todo.ly visitors who do not want cookies installed on their computers may configure their browsers to refuse cookies before visiting StudentReminder app, with the caveat that certain elements of may not work correctly without cookies.

Privacy Policy Changes
StudentReminder advises users to review this page periodically for changes to its Privacy Policy. If you have a account, you should also check the dashboard of your blog for notifications of these changes. Your continued use of this site following any changes to this Privacy Policy constitutes your acceptance of such changes.

Conclusion

Student Reminder applications are an essential part of the workday. This became famous due to its ease of use and efficiency. This tool allows you to examine the whole backlog of jobs and the user roadmap at a glance. To coordinate personal workload as well as the workflow of all students, users may utilize a student's to-do planner on one page to highlight the priority tasks and rank them according to the level of relevance. Because this tool is perfect for project management and performing individual assignments.
